

# PROJECT ALERT

## Mercer Island Park-and-Ride

February 2006

The Mercer Island Park-and-Ride lot will be closed beginning **Feb. 13, 2006, for approximately one year.** The parking lot will close in order to begin construction on the new parking garage at the existing site, which will provide increased parking capacity for commuters. Buses will continue service.

Current bus routes (King County Metro Routes 201, 202, 203, 204, 205, 213, 216, 892, 989 & 942, and Sound Transit Routes 550 & 554) will continue to serve the park-and-ride site during construction.

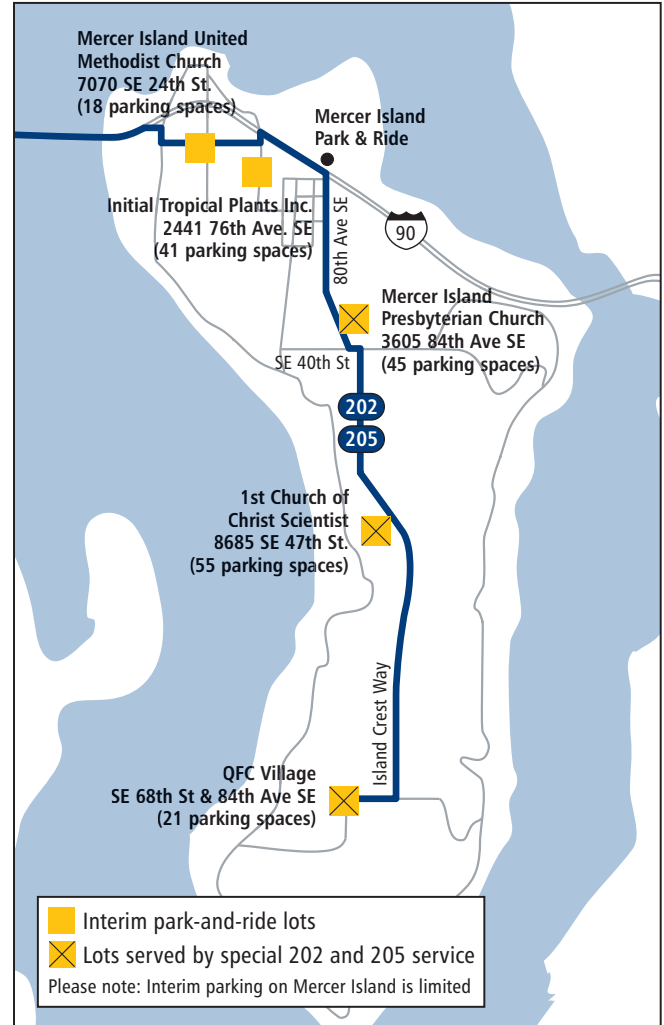

Limited interim parking is being provided by Sound Transit and King County Metro at alternate sites on Mercer Island. These parking lots are identified on the map at right. Bus Routes 202 and 205 will provide service between these parking lots and the Mercer Island Park-and-Ride. The three lots marked with an "X" will be served by a temporary special shuttle every 10 minutes during peak periods. See the Route 202 timetable for schedule information.

Interim parking on Mercer Island is limited so riders are encouraged to utilize other park-and-ride lots on the Eastside or Rideshare options during construction. Sound Transit's Rider's Guide to I-90 provides additional park-and-ride locations.

Although the closure of the Mercer Island Park-and-Ride will be a temporary inconvenience, we are constructing a new park-and-ride facility to better serve the needs of riders and as an important part of Sound Transit's regional transit vision. When complete in early 2007, the new park-and-ride will include increased parking capacity with over 450 parking stalls, an improved rider loading area, additional bus bays, new passenger shelters, wider platforms and new bicycle storage.
